

HOW DOES MEDIA IMPACT YOU?

All Bay Area youth ages 13 to 18 welcome

Not everyone can have this workshop come to their school or community, so we're inviting you to come to us!

- What do celebrity memes, TV shows, your Snapchat account, and billboards all have in common?
- Why does representation matter?
- Does your Instagram feed make you feel inspired... or stressed?
- Why are stereotypes still in full effect?

We'll give you tools to answer these questions for yourself. This is not a lecture! Come release your inner media expert... and discover how youth just like you are making waves & creating change all over the country.
